

Power Supply Unit PSU1220JA

12V 2A Power Supply Unit with M-Jack connector to feed SWP5..QD multiswitch range, it is very useful and reliable.

It is protected by overvoltage to guarantee system reliability

Easy to install thanks to included adapters

Characteristics

- 12V 2A power supply with M-Type Jack Plug (2,5x5,5x12; internal positive, external negative)
- Insulation class II
- In the package are there adapters for Europe, South America and Asia (type C) United Kingdom, Ireland, Malta, Malaysia and Singapore (type G) USA, Canada, Mexico and Japan (type A) and Australia, New Zealand, China and Argentina (type I)
- Cost effective

PSU1220JA		
Fracarro Code		287405
Output Voltage	V	12
Output Current	mA	2000
Main Voltage	V, Hz	100-240, 50-60
Isolation	Class	II
Connector	mm	2.5x5.5x12
Polarity	pol	 internal positive, external negative
Dimensions	mm	78 x 48 x 35
Operating Temperature	°C	0 ÷ 45
